**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed 12 December 2006 canceling all claims (1-36) drawn to a method, a system, and apparatus, for aggregating data. The remaining claims are not readable on the originally claimed invention (claim 1) recites the limitation of an aggregating data comprising the steps of: receiving data from a plurality of sources; cleaning the received data, whilst maintaining an audit trail of any changes made to the data in the cleaning step; creating a data set comprising the cleaned data and the audit trail; and generating output using the data set, whereas the newly presented claims 39-81 recite the limitations of linking data records from a plurality of sources, the method comprising of: receiving data record from a plurality of sources; cleaning the received data records; matching received data records together according to matching rules for examining the similarity between respective data records, and building a virtual data model, based on matching results, that represents the data records as a map of linked data records, wherein the data records are not merged by the matching step; and generating a report based on the at least the matching results represented by the virtual data model.

Since the applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on merits. Accordingly, claims 39-81 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP §821.03.

2. The amendment filed 12 December 2006 is non-responsive because all of the pending claims have either been cancelled or withdrawn from consideration. Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) days, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
